REMOTE SENSING

**UCEAP Transcript Title**

REMOTE SENSING

**UCEAP Quarter Units**

8.00

**UCEAP Semester Units**

5.30

## Course Description

This course covers the practical and theoretical principles of remote sensing used in Earth observation. Students understand the content of data produced in these processes and how to extract specific information. Students learn to determine which techniques are best used in different situations.

## Language(s) of Instruction

English

## Host Institution Course Number

GEO3515

## Host Institution Course Title

REMOTE SENSING

## Host Institution Campus

Mathematics and Natural Sciences

## Host Institution Faculty

## Host Institution Degree

## Host Institution Department

Geosciences
