UCEAP Transcript Title INTERNET & PRIVACY
UCEAP Quarter Units 4.50
UCEAP Semester Units 3.00

Course Description
The use of the Internet is accompanied by extensive transfers of private data to hard-to-survey data management and non-transparent institutions. This lecture series "Internet and Privacy" strives to explain the details of Internet usage rarely known by the general public, and to support the debate on a solid, factual basis. It seeks to help optimize the tremendous benefits of the Internet, while preserving informational self-determination and pointing out alternatives to conventional techniques.

Language(s) of Instruction
