UCEAP Course Number 106
UCEAP Course Suffix
UCEAP Official Title FUNDAMENTALS OF PROJECT MANAGEMENT
UCEAP Transcript Title PROJECT MANAGEMENT
UCEAP Quarter Units 5.50
UCEAP Semester Units 3.70

Course Description

The course discusses topics including organization and tasks of project management; project teams and project responsibility; project structuring, phases of the project, and milestones; project planning, tools for project planning (Gantt, etc.), and basics of network planning; project risk analysis; and project execution, and controlling and completion. The exercise on project management is oriented to training and deepening the methods of project planning and controlling presented in the lecture. More in-depth knowledge about those methods is acquired in a practical-case study. For this task, students learn to use specific project management tools.
