UCEAP Semester Units
3.00

Course Description

The seminar introduces sociological theories and methods that investigate the relationship between technology and society. The majority of the course is inspired by the field of Science and Technology Studies (STS). The texts are a mix of theoretical discussions, historical approaches, and ethnographic/situationalist research. The course explores concepts and topics such as sociotechnical systems, actor-networks, workplace studies, cyborgs, design, and sociotechnical imaginaries.
