SOC/CULTR/HEALTH 1

**UCEAP Quarter Units**

8.00

**UCEAP Semester Units**

5.30

## Course Description

This course develops students to understand the dynamic and contextual meaning of health and wellbeing within a complex and globalizing world. Political, sociological and ethical conceptualizations of health and wellbeing will be explored to understand the current health and policy contexts for individual, families and communities. The range of environmental, social, political and individual factors that influence health and wellbeing are explored within the context of contemporary society to examine how health inequalities are produced, replicated and reinforced.
