# COURSE DETAIL

| ESSENTIAL PROTEIN STRUCTURE AND FUNCTION |
| --- |
| **Country**<br>United Kingdom - England |
| **Host Institution**<br>University College London |
| **Program(s)**<br>English Universities,University College London |
| **UCEAP Course Level**<br>Upper Division |
| **UCEAP Subject Area(s)**<br>Biochemistry |
| **UCEAP Course Number**<br>111 |
| **UCEAP Course Suffix** |
| **UCEAP Official Title**<br>ESSENTIAL PROTEIN STRUCTURE AND FUNCTION |
| **UCEAP Transcript Title**<br>PROTEIN STRUC&FUNCT |
| **UCEAP Quarter Units**<br>6.00 |
| **UCEAP Semester Units**<br>4.00 |

**Course Description**
This half course unit is designed for students whose principal discipline is not Biochemistry, but whose interests lie in the broad area of biological sciences. It is primarily a lecture course with tutorials and a dry lab practical on protein structures. The course covers key topics in protein structure and function. The depth of understanding of these topics that students attain equips them for final year studies in non-molecular based fields of biological science such as Anthropology, Psychology, and Physiology, or in some cases Human Sciences.

**Language(s) of Instruction**
English

**Host Institution Course Number**
BIOC0006

**Host Institution Course Title**
ESSENTIAL PROTEIN STRUCTURE AND FUNCTION

**Host Institution Course Details**

**Host Institution Campus**
University College London

**Host Institution Faculty**

**Host Institution Degree**

**Host Institution Department**
Biochemistry
