6.00

**UCEAP Semester Units**

4.00

## Course Description

University of Sydney welcomes 30 leading business, government, and community organizations to offer real-world projects available for eligible students to apply. The projects champion collaboration across discipline areas and provide rare opportunities to work with major industry partners on real-world problems. The projects are open to all eligible undergraduate students who have completed at least 1.5 years (3 semesters) of full time study. Students work in interdisciplinary groups throughout the semester, in collaboration with the industry partner and academic lead. Groups present their projects to the industry partner at the end of the semester.
