8.00

**UCEAP Semester Units**

5.30

**Course Description**

This course introduces the subject area of international political economy. It begins with the main theoretical schools of thought in international political economy and examines international exchanges of money, trade, and investment, including how they have changed over recent decades. Debt, underdevelopment, the role of non-state actors, and the growth of regionalism in the context of globalization are also examined.
