Course Description
Almost forty years after the death of Mao, China is still coming to grips with what historians now call the Mao era, from the founding of the People's Republic in 1949 to his death in 1976. The Mao era has had a profound impact on China's politics, economy, society, and culture that is still being felt today. Examining both primary sources and recent scholarship on the Mao years, this course studies the waves of political movements and how they affected the lives of the Chinese people.
