S

UCEAP Official Title
THE HISTORY OF EVOLUTION

UCEAP Transcript Title
HIST OF EVOLUTION

UCEAP Quarter Units
6.00

UCEAP Semester Units

4.00

Course Description
Charles Darwin's Theory of Evolution by natural selection, set out in THE ORIGIN OF THE SPECIES, is a cornerstone of modern science and one of the most divisive ideas in history. This course explores the power of evolutionary theory, and the protracted controversy it has provoked, by stepping back into Darwin's century, to examine the scientific, political, and cultural currents that shaped his big idea.
