

# COURSE DETAIL

## EVIDENCE-BASED HEALTHCARE PRACTICE (LEVEL 3)

**Country**

United Kingdom - England

**Host Institution**

University College London

**Program(s)**

Summer at University College London

**UCEAP Course Level**

Upper Division

**UCEAP Subject Area(s)**

Health Sciences

**UCEAP Course Number**

142

**UCEAP Course Suffix**

S

**UCEAP Official Title**

EVIDENCE-BASED HEALTHCARE PRACTICE (LEVEL 3)

**UCEAP Transcript Title**

EVIDENCE/HLTH CARE

**UCEAP Quarter Units**

6.00

**UCEAP Semester Units**

4.00

### **Course Description**

Evidence-based healthcare has taken root as one of the central pillars of modern medicine. Arguably, the delivery of healthcare based on scientific evidence has never been more important, as we grapple with unexplained variations in practice and spiraling healthcare costs. Despite its widespread importance for rational decision making, the ideal of truly evidence-based healthcare remains elusive. This course is highly engaging and interactive and supports students in developing the necessary skills to be effective and critical practitioners of evidence-based healthcare. Students learn to apply these principles in their studies and in their professional clinical careers. Students also have the opportunity to experience a research environment by meeting researchers in the field and completing a group project under supervision and presenting the results orally.

### **Language(s) of Instruction**

English

### **Host Institution Course Number**

ISSU0110

### **Host Institution Course Title**

EVIDENCE-BASED HEALTHCARE PRACTICE (LEVEL 3)

### **Host Institution Campus**

Bloomsbury

### **Host Institution Faculty**

Faculty of Medical Sciences

### **Host Institution Degree**

Bachelors

### **Host Institution Department**

UCL Medical School
