Course Description

This course focuses on the main features of the law of contracts in various legal systems of the world while examining their commonalities and main differences. Students develop a proper understanding of the relevant legal systems and gain insight into various other legal systems. Students analyze various legal systems with the correct method in order to look for corresponding rules in the foreign system. This course also draws attention to the most important instruments of harmonization of contract law on an international level. The course emphasizes the contract law of the common law and the civil law legal families, which are divided into Romanistic, Germanic, and Nordic systems, with references also to the system of the Former Soviet Union and the process that this is undergoing.
