Anthropology

**UCEAP Course Number**

110

**UCEAP Course Suffix****UCEAP Official Title**

HUMAN EVOLUTION

**UCEAP Transcript Title**

HUMAN EVOLUTION

**UCEAP Quarter Units**

5.00

**UCEAP Semester Units**

3.30

**Course Description**

This course provides a study of the fundamentals of the origins of human biological variability based on the relationships established between cultures, their biology, and their environment. It provides elements for understanding the biological phenomena related to human evolution and its development in the Primate order, considering the plurality of its conditions. Other topics covered include: paleoanthropology, the fossil record and early cultural evidence; microevolution of human populations, specifically in the Americas and the Southern Cone.

**Language(s) of Instruction**

Spanish
