Course Description

This course is designed for students who already have an upper intermediate level of Spanish. Students develop communicative competence to a higher level of proficiency and accuracy and gain a deeper insight into Spanish life and culture. While the focus is on competence in the language skills of speaking, listening, reading, and writing, there is a particular emphasis on oral communication and extending vocabulary. The course is based on a wide range of intercultural themes to prepare students to participate more actively in university, work, and social contexts in Spanish-speaking countries.
