Course Description

This course introduces main functions of governments, and explains some features of central and local governments in Japan. It course examines basic theories of public finance and the fiscal activities of governments, related to efficiency and equity criteria. It explores the issues of provision of public goods, externality, income (re)distribution, economic effects of taxation, some topics of intergovernmental fiscal relations, and some fiscal decision-makings of central and local levels. While the course mainly uses the framework of traditional public finance theory, if necessary, it introduces public choice approach.
