## Course Description

This course provides students with a sound basis for communicating effectively and accurately in oral and written Italian. This course covers basic Italian grammar and syntax including present, past, future, imperative, and conditional tenses. Students are able to use direct, indirect, and reflexive pronouns in addition to comparatives and superlatives. Authentic materials (songs, videos, advertisements, and film clips) are used in a communicative-based approach, and emphasis is placed on the four skills of listening, speaking, reading, and writing. Students participate in several sessions of language exchange with Italian university students, and field trips take them outside the classroom to engage with the city and Romans to reinforce the grammatical skills learned in class. The course is conducted entirely in Italian.
