Course Description

This class teaches students tools and techniques that are necessary for the reception of linguistic literature, the conduct of own research and the (oral or written) presentation of academic work (one's own and that of others). This includes the following topics: academic methods, forms of organization and publication of linguistics research papers, research techniques in libraries and the Internet, forms of argumentation in linguistic work, the questioning of informants, basic corpus linguistic and psycholinguistic methods, planning and execution of a referential or independent academic work, and the use of word processing and presentation software (LaTeX).
