

# COURSE DETAIL

## CELL BIOLOGY AND NEUROSCIENCE

**Country**

United Kingdom - England

**Host Institution**

King's College London

**Program(s)**

King's College London

**UCEAP Course Level**

Upper Division

**UCEAP Subject Area(s)**

Biological Sciences

**UCEAP Course Number**

142

**UCEAP Course Suffix****UCEAP Official Title**

CELL BIOLOGY AND NEUROSCIENCE

**UCEAP Transcript Title**

CELL BIO & NEUROSCI

**UCEAP Quarter Units**

6.00

**UCEAP Semester Units**

4.00

## Course Description

This course introduces students to the fundamentals of Cell Biology through the lens of Neuroscience. In addition to a limited number of core lectures on key processes such as cell division and cell organelles, a series of 'expert lectures' will showcase research areas at the forefront of cell biology and neuroscience that are flourishing at King's (e.g. a lecture on Neuroimaging by Prof Steve Williams, Head of the Neuroimaging Centre in Denmark Hill). Regular practicals help students to get acquainted with laboratory approaches in cell biology.

## Language(s) of Instruction

English

## Host Institution Course Number

4BBY1030

## Host Institution Course Title

CELL BIOLOGY AND NEUROSCIENCE

## Host Institution Course Details

<https://keats.kcl.ac.uk/mod/url/view.php?id=5899388>

## Host Institution Campus

King's College London/Guy's

## Host Institution Faculty

## Host Institution Degree

## Host Institution Department

Anatomy & Human Sciences

## Course Last Reviewed

2022-2023
