100

**UCEAP Course Suffix**

B

**UCEAP Official Title**

MONEY AND BANKING

**UCEAP Transcript Title**

MONEY & BANKING

**UCEAP Quarter Units**

3.00

**UCEAP Semester Units**

2.00

### **Course Description**

This course begins with an analysis of banking regulation. Due to the potentially enormous impact of bank runs, panics, and financial crises on the economy, the financial industry is heavily regulated. The course discusses the influence of regulations on the development of financial markets. In turn, the course addresses how the financial regulations had evolved in face of fast-growing financial innovations. Finally, we discuss how the central bank controls the supply of money and uses available tools to achieve the desired goals, the monetary transmission mechanisms, and how the public reacts to changes of monetary policies. The course also provides insight into the role of real estate markets and stock markets in the transmission of monetary policies and whether the central bank should react to the fluctuations of these asset prices.

### **Language(s) of Instruction**

Chinese
