Course Description

This course examines the history and development of the fairytales in Europe from the 16th century to the present day. The course begins with an overview of the most well-known fairytales collections by Giovanni Straparola, Giambattista Basile, Charles Perrault and the Brothers Grimm, before exploring modern retellings in children's picturebooks, young adult literature, and children's film. The course is grounded in contemporary psychological and socio-historical fairytale theory and encourages students to reflect on the form, purpose and content of classic fairytales over time.
