3.30

Course Description
This course is the first of a series of two intermediate financial accounting subjects. It builds on the foundation laid in the introductory accounting course to provide the required techniques in preparing and interpreting financial statements. It reviews the fundamental financial accounting concepts and focuses on the detailed recording and reporting of important items relating to the asset side of the balance sheet. It also examines the conceptual framework of accounting and financial statement presentation. This course provides the prerequisite knowledge to prepare for advanced accounting courses.
