Course Description

This course presents a historical and contemporary study of European integration and the role of the European Union in global politics. Some of the key concepts explored include Europeanization, Atlantism, supranationalism, intergovernmentalism, sovereignty, integration, interdependence, globalization, security, conflict and cooperation. Topics also include: the European Union as a global actor; the academic study of European integration; Europe after the end of the Second World War; birth and evolution of Atlanticism; the Soviet sphere of influence; dissension in bipolar Europe; Europe in the 1980s; the first European Community; the failure of the political and military community; Gaullist approach to European integration and the enlargement of the EC; reformulation of the European map and the creation of the European Union; the Common Foreign and Security Policy; the EU in a globalized world; the impact of the Lisbon Treaty on EU foreign policy; challenges of the future. Assessment is based on participation, a midterm exam, three short essays, and a final exam.
