Course Description

This course provides a study of the development of the international economy and the interaction between economic actors and agents from a historical perspective. It examines the different economic causes, effects, and policies related to the movement of people, goods, capital, and ideas in market integration, as well as the processes of economic specialization, convergence and divergence in history. Topics covered include: the first globalization of the 19th century (1820-1913); withdrawal and rupture of international integration (1914-1945); reconstruction of the international economy and second globalization; the world economy at the beginning of the 21st century.
