5.00

UCEAP Semester Units

3.30

Course Description

Through lectures, readings, essays, projects and class discussions, this course analyzes ethnographic research and critical debates accumulated by anthropologists throughout different countries of the region. It examines a set of dimensions and processes around which the construction of the nation in Latin America has been articulated. The course addresses the classical conceptual axes that founded national projects in Latin America from an anthropological perspective.

Language(s) of Instruction

Spanish
