UCEAP Semester Units

5.30

Course Description

This course for foreign students is designed to improve students' language skills and vocabulary. Areas of focus include grammar, conversation, writing exercises, and listening and reading exercises. In addition, excursions are planned to introduce students to German culture. Students work with cultural and historical topics on an academic level and broaden their intercultural knowledge. They are introduced to independent learning methods and familiarize themselves with typical learning situations at German universities. In this class at the A1 level according to the CEFR, students learn basic vocabulary and grammatical structures as well as corresponding competencies in university-specific situations. The class takes intercultural and methodological aspects of foreign language learning into consideration, and students are introduced to German culture and society. The A1 level is split into two courses, the A1.1 course covers the first half of the level and the A1.2 course covers the second half of the level.
