From Samurai Warriors and Salary men of Japan to Kkotminam and Chosiknam of South Korea, the archetype of masculinity has changed over time. This course examines public discourses and media projections of masculinity, primarily in Japan and South Korea. Focusing on shifting moments in history, the course explores how gendered social order comes into play and governs the way in which men perceive themselves or negotiate with projected images. The course examines the role of men in sexuality, the military, and popular culture.
