AI: ROBOT OVERLORD, REPLACEMENT, OR COLLEAGUE?

**UCEAP Transcript Title**

ARTIFICIAL INTELLIG

**UCEAP Quarter Units**

4.00

**UCEAP Semester Units**

2.70

## Course Description

This course explores the mechanisms, implications, and ethics of an environment where artificial intelligence plays an increasingly important role. Students consider the science behind the headlines to help students develop an informed opinion regarding the complexities of the use of AI in society. Students also examine the conceptual frameworks behind AI methodologies and the sources of the data on which they operate. This course provides an introduction to computational thinking on what sort of problems AI can realistically be expected to help with. Students analyze a series of case studies highlighting the use of AI in work and society.

## Language(s) of Instruction

English

## Host Institution Course Number

UCIL20122

## Host Institution Course Title

AI: ROBOT OVERLORD, REPLACEMENT, OR COLLEAGUE?

## Host Institution Course Details
