COMPOSTION FOR FILM

UCEAP Quarter Units

4.00

UCEAP Semester Units

2.70

Course Description

In this course, students analyze the effect of music composition in film. This includes the melodic and rhythmic elements as well as how they complement the accompanying visual work. This is done through looking at clips of film both with and without music and picking apart how it is both applied and withheld. The course also discusses the process of being a composer working on a film and the role they play.
