5.30

Course Description

The course introduces students to notions, definitions, and insights about social work practice from within the profession, discussing how they compare with public understanding (and prejudices) of the social workers' role and task. A theme is to explore how social workers can and do make a difference. Outside contributors discuss what they do and how they interface with other professions, providing students with an awareness of the distinct place of social work in the range of welfare services.
