

# COURSE DETAIL

## PHILOSOPHY OF SCIENCE

### Country

United Kingdom - England

### Host Institution

King's College London

### Program(s)

King's College London

### UCEAP Course Level

Upper Division

### UCEAP Subject Area(s)

Philosophy

### UCEAP Course Number

117

### UCEAP Course Suffix

### UCEAP Official Title

PHILOSOPHY OF SCIENCE

### UCEAP Transcript Title

PHILOSOPHY/SCIENCE

### UCEAP Quarter Units

6.00

### UCEAP Semester Units

4.00

## Course Description

Science is a source of a great deal of our knowledge about the world, but what gives it its claim to epistemic authority? Is there something special about the scientific method, or is it an extension of everyday reasoning? To what extent can science tell us about things we can't observe? And how might we reconcile a positive answer to the previous questions with the knowledge that science is a social enterprise and subject to many of society's failings?

### Language(s) of Instruction

English

### Host Institution Course Number

6AANA026

### Host Institution Course Title

PHILOSOPHY OF SCIENCE
