Course Description

This course examines the role of transportation in international business in detail. It provides students with a conceptual understanding of the conditions faced by transportation managers in an international environment. Topics include complexity of international shipments, economic and legal environment of ocean, air carriers, freight forwarding, carrier selection, contract logistics, and export documentation. Furthermore, it covers the cost structure and documentation of shipments, conference system for shipping lines, international sourcing, service priorities, and future outlooks for transportation logistics. Prerequisites for the course include an introductory level logistics course.
