SELF & SOCIETY

**UCEAP Quarter Units**

8.00

**UCEAP Semester Units**

5.30

**Course Description**

This course introduces how sociology approaches the issue of "self." Students compare approaches that portray society as something external to us with approaches that focus on the relational and interactional aspects of the self. This course also examines a variety of other aspects of the self such as how we make sense of ourselves through narrative, how our selves are always embodied, and the role that the habitual and the unconscious play in our sense of self.

**Language(s) of Instruction**

English
