BURDEN OF DISEASE

**UCEAP Quarter Units**

3.00

**UCEAP Semester Units**

2.00

## Course Description

This course provides an overview of the concepts and methods used to quantify the burden of disease at the national and global level. The Global Burden of Disease is a main focus of this course, but other alternative approaches are also discussed. The course consists of lectures, computer labs, a hands-on group-based project, and a field visit to the Department of Statistics of Ministry of Health and Welfare.
