**Course Description**

The course is a continuation of the pre-honors Philosophy of Science 1, although the latter is not a pre-requisite for it. Students explore a wide-range of topics suitable for 3rd and 4th-year students and read both primary and secondary sources on classic and contemporary topics. This course focuses on the epistemology of science and as such complements PHIL10050 (which is more focused on the metaphysics of science).
