English Universities, Imperial College London

**UCEAP Course Level**

Upper Division

**UCEAP Subject Area(s)**

Civil Engineering

**UCEAP Course Number**

138

**UCEAP Course Suffix****UCEAP Official Title**

ENVIRONMENTAL ENGINEERING

**UCEAP Transcript Title**

ENVIRONMENTAL ENGR

**UCEAP Quarter Units**

4.00

**UCEAP Semester Units**

2.70

## Course Description

This course covers three connected areas of environmental engineering: flood estimation and management, design of wastewater collection and treatment systems, and waste management. Understanding of the basic principles is supplemented by practical problem-solving exercises in the context of civil engineering. This course provides an introduction for civil engineers to the underlying principles that guide waste management practice.

## Language(s) of Instruction

English

## Host Institution Course Number

CI3-360

## Host Institution Course Title

ENVIRONMENTAL ENGINEERING

## Host Institution Course Details

## Host Institution Campus

Imperial College London

## Host Institution Faculty

## Host Institution Degree
