4.50

UCEAP Semester Units
3.00

Course Description

This course examines the most recent archaeological achievements from the evolution of humans and the Paleolithic age to the origins of agriculture, states, and empires throughout Africa, Europe, Asia, Australasia, and the Americas (North and South). This course provides an opportunity for students to extend their areas of interest into global prehistory and look at themes surrounding what makes us human and how have we changed over the course of our shared past.

Language(s) of Instruction
English
