UCEAP Semester Units

8.00

Course Description

This introductory course offers students the opportunity to study Shakespeare's plays in their original theatrical and historical contexts. Lectures combine close reading of the texts with video clips of productions, to encourage the students to read the plays not just as words on the page but as live events in the theater. Small-group seminars concentrate on close reading. The assessments asks students to analyze and contextualize selected passages from the plays and to write essays based on analysis of particular scenes.
