HUMAN BEHAVIOR

**UCEAP Quarter Units**

5.00

**UCEAP Semester Units**

3.30

## **Course Description**

The course provides a study of theories of human development and social functioning at the individual, family, small group, community, organizational, and societal levels, with application in explaining complex interactions between individuals and the social environment. The course covers human development in infancy, childhood, adolescence, and adulthood, with respect to the developmental scientific knowledge base regarding opportunities and vulnerabilities present during the different stages of the life cycle and the biopsychosocial and cultural factors that can influence individual development—values, beliefs, worldviews, and identities.
