UCEAP Quarter Units 4.50
UCEAP Semester Units 3.00

Course Description

This course focuses on identifying key images in the Victorian imagination and analyzing the process through which these figures became loaded with meaning. It considers how, in an age of growing class conflict, gender (re)definition, technological progress, and scientific enquiry, symbolic figures aggregated hypotheses emanating from various fields of interest. Oral presentations are supported by visual material and explore the complexities and contradictions crystallized in iconic images considered in a Barthesian perspective as products of the Victorian cultural history.

Language(s) of Instruction
