**UCEAP Transcript Title**

DEMOCRACY & DEVLPMT

**UCEAP Quarter Units**

5.00

**UCEAP Semester Units**

3.30

**Course Description**

This course examines the theoretical and empirical bases of arguments that relate to democratic governments and economic development. Students consider different conceptions of democracy, the conditions under which they emerge and survive, and the outcomes that democratic governments are likely to generate. Students also consider the relationship between political regimes, instability and development, as well as the impact of specific democratic institutions – rules for executive formation, electoral systems, political parties – on economic development.
