**UCEAP Semester Units**

4.00

## Course Description

This module examines the centrality of food, drink and dining practices in Tamil and other South Asian cultures. The module probes a fascinating facet of South Asian gastro politics by exploring such themes as the relationship between taste and nourishment, food and gender roles, the politics of commensality, and representations of eating and drinking across various visual media. The thematically organised lectures and tutorials incorporate perspectives from history, literature, sociology, anthropology and cultural studies.
