UCEAP Transcript Title

ENVIRONMENTAL ECON

UCEAP Quarter Units

6.00

UCEAP Semester Units

4.00

Course Description

This course provides an economic perspective on the environment and discusses the reasons behind why environmental problems exist, why unregulated markets sometimes fail in this context, and potential economic solutions to these problems, which include regulations, taxes, subsidies, and pollution permit trading schemes. Students investigate methods for determining the benefits and costs of environmental preservation.
