4.50

**UCEAP Semester Units**

3.00

**Course Description**

This course introduces how to find relevant and exhaustive data, how to compute and analyze data, how to propose and objective assessment of the data, and how to recommend appropriate policy. It decrypts main statistical sources by economics and policy makers to formulate their decisions. Topics include surveys, GDP, unemployment, imbalances, and leading indicators. The course covers the process for determining these data points as well as the meaning embedded within them.
