**UCEAP Semester Units**

3.00

## **Course Description**

The course covers the main themes of Intellectual Property Law such as its sources (international and domestic), its different branches, and the core principles running the appropriation of intellectual creations. The course provides students with an overview of the field in order to better understand the current controversies related to its legitimacy. Each topic is illustrated by case studies aimed at underlining the strategic role of intellectual property within our economy (i.e. Luxury brand, geographical indications, copyright within the digital economy).
