UCEAP Quarter Units 6.00
UCEAP Semester Units 4.00

Course Description

This course provides an overview of the development of economic theory, primarily emphasized as a science in evolution and fostered by the debate on the main economic issues of the time as a response to economic reality. The course focuses on major writers and economic issues central to the development of what is considered standard economic theory, as well as lesser-known contributions, to account for the historical and theoretical preconditions for contemporary economic theory.
