4.50

**UCEAP Semester Units**

3.00

**Course Description**

This course in microeconomics examines markets based on decisions made by individual actors in an economy such as consumers, firms, and government, facing scarcity of resources. This course covers key concepts in microeconomics and basic tools to understand an allocation mechanism of markets. Topics: theory of the firm in a free enterprise system; theory of consumer demand; market structures and resource allocation; and selected topics on government regulation.
