

# COURSE DETAIL

## INTRODUCTION TO HUMAN GENETICS

**Country**

United Kingdom - England

**Host Institution**

University College London

**Program(s)**

University College London

**UCEAP Course Level**

Upper Division

**UCEAP Subject Area(s)**

Biological Sciences

**UCEAP Course Number**

158

**UCEAP Course Suffix****UCEAP Official Title**

INTRODUCTION TO HUMAN GENETICS

**UCEAP Transcript Title**

INTRO HUMAN GENETIC

**UCEAP Quarter Units**

6.00

**UCEAP Semester Units**

4.00

## Course Description

The unifying topic of this course is how genes and their interactions, either with other genes or with the environment, make us what we are. The course introduces students to the subject of human genetics, enable them to appreciate the implications of genetic research for society and provide a basis for more advanced studies. Students learn to understand and critically evaluate scientific studies in human genetics, whether reported in scientific journals or in the lay press.

## Language(s) of Instruction

English

## Host Institution Course Number

BIOL0010

## Host Institution Course Title

INTRODUCTION TO HUMAN GENETICS

## Host Institution Course Details

<https://www.ucl.ac.uk/module-catalogue/modules/introduction-to-human-genetics-B...>

## Host Institution Campus

University College London

## Host Institution Faculty

## Host Institution Degree

## Host Institution Department

Division of Biosciences

## Course Last Reviewed

2022-2023
