## Course Description

This course is part of a concurrent program for both the BA (Arch) and M (Arch) program. This course provides a comprehensive and in-depth examination of the theories, methodologies and praxis of urban design, introducing ideas that are instrumental in establishing the foundations of urban design, examining rationales and strategies for creating vital and lively urban spaces, exploring key issues and myriad challenges facing urban design today and in future. The course examines urban design from a place-making perspective, ranging from physical to social, tangible to intangible, global to local, this module covers various topics on urban form, density, diversity, identity, public space, community, and sustainability.
