4.00

Course Description

This course introduces students to a diverse range of art forms utilizing digital media and new technologies including: screen-based artworks; digital media installation and performance; digital video/film; participatory media and remix culture; online and networked art; interactive art works; and interdisciplinary art/science/technology projects. Students explore the changing aesthetic, cultural, and technical dimensions of new digital technologies, and develop the critical and analytical tools with which to discuss and evaluate digital art works and the ways that audiences interact with them.
