**UCEAP Semester Units**

3.00

## Course Description

This course offers an introduction to antitrust as a mechanism for keeping private power under control. It goes beyond black letter law and integrates legal rules within the broader societal and historical developments that have shaped their enactment and evolution. Instead of discussing antitrust as a set-in-stone collection of rules and case law, the course presents antitrust as a living body that adapts to changes in technology, ideology, and politics.
